

Mobile OpenRTB 2.2 Integration

Mobile OpenRTB 2.2 Integration

Support for the OpenRTB 2.2 integration will be deprecated on May 21, 2018.

Xandr supports the [OpenRTB 2.4 specification](#) for receiving all media type impressions.

Mobile supply partners can integrate with Xandr via the OpenRTB 2.2 specification. For comprehensive bid request and response details and samples, see the [OpenRTB 2.2 specification](#).

In the OpenRTB 2.2 specification, you'll find required, recommended, and optional bid request fields. Xandr supports all required fields but only certain recommended and optional fields. The pages in this section clarify which recommended and optional fields Xandr supports.

In This Section

- [Mobile OpenRTB 2.2 Bid Request](#)
- [Mobile OpenRTB 2.2 Bid Response](#)
